To:

Dear Arkansas educators:

ADE is pleased to offer FREE resources for Arkansas educators. The attached Microsoft Word documents lists 15 available resources. Instructions are also attached to assist educators with setting up accounts for one of the resources (Pathways Science).

Additionally, Penda is hosting two training webinars on Monday, October 1. Participation in these webinars IS NOT required in order to use the resources. You will need a computer with internet access, speakers {headset recommended} and a microphone.
